

# POWER 4.

# POWER all purposes..... —4—

From beginning to end **POWER** is built to take the —4— worst punishment. Massive chassis tubes ensure durability.

Service access has been given top priority. No other vehicle in its class offers a walk-in maintenance capability.

Rugged axles and suspension cater for the heaviest loads under all-terrain conditions. Chassis structure assures ease of body mounting and minimises stress transfer.

## **POWER 4** all terrain!

Gradeability is as much as 94.7% for the standard petrol engine and nearly 73% for the diesel option.

Axle ground clearance is 240mm and under body 395mm.

Robust bumpers and sturdy crash protection bar enhance survivability in the worst circumstances.

## **POWR** the farm!

Not only is there payload capacity of 1.5 tonnes plus but also space to go with it in this full 12-seater Safari.

Water is no hazard. Standard wading depth is 765mm without modification. Special needs are readily catered for.

## **POWR** leisure too!

Stability when towing up to 3.5 tonnes is confirmed by the generous track and roll-free suspension.

Large section tyres (8.25-16 std) ensure good flotation on soft ground.

Tractive effort is a massive 3670 kgs for the standard petrol and 2830 kgs for the diesel.

Nothing better the **POWR** in conditions like these. **—4—**

## Simply **POWER** 4!

Functional styling that is not out of place anywhere. Clean lines to please and simple panels to reduce repair costs.

## **POWER** 4 builders!

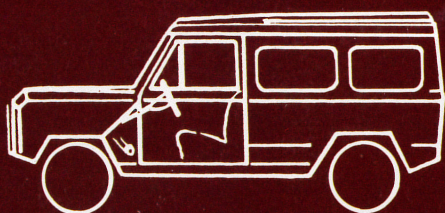

An 8ft (2440mm) bed length plus 4ft (1220mm) through the tailgate and between the wheelboxes gives convenient loading for standard 8 x 4 sheets.

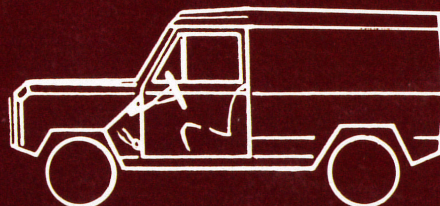

Both Hard top and Safari have a generous width rear door. A combination tow hitch, variable for height, comes as standard on all models.

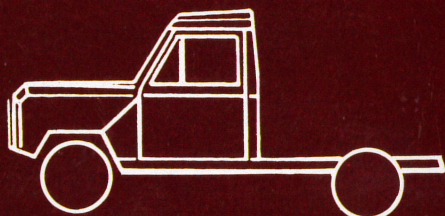

.....in fact **POWR** people!
